About Us

Established in the year 2002, Fluid Engineering & Services LLC is part of the well known and established Al Riyami Group of Companies in Oman.

Our focus is on products and services in several key areas of the industry which includes Design, Supply, Installation and Servicing of Swimming pools, Water features, Water Fountains and Wellness products.

Our Mission

- to provide the most reliable & technologically advanced products and services in the world.
- to strive continuously for improvement and innovation in all aspects of our business.
- to ensure excellent customer service.
- to embrace our responsibility to ensure a quality work environment to our employees and a positive contribution to the community.

Our Vision

Our vision is to be a Product and Service provider of renown, both locally and in the region, whose excellence in product quality, fast and timely service support, price competitiveness, overall customer friendliness and environmental awareness are widely recognized.

Swimming Pools

A key part of our portfolio is the design, and supply of swimming pool systems & parts. Our multi-focus approach lies in the area of Private and Public Swimming Pools, Custom built Swimming Pools, Wellness, Heating & other solutions like Water Treatment, Irrigation and Aquaculture.

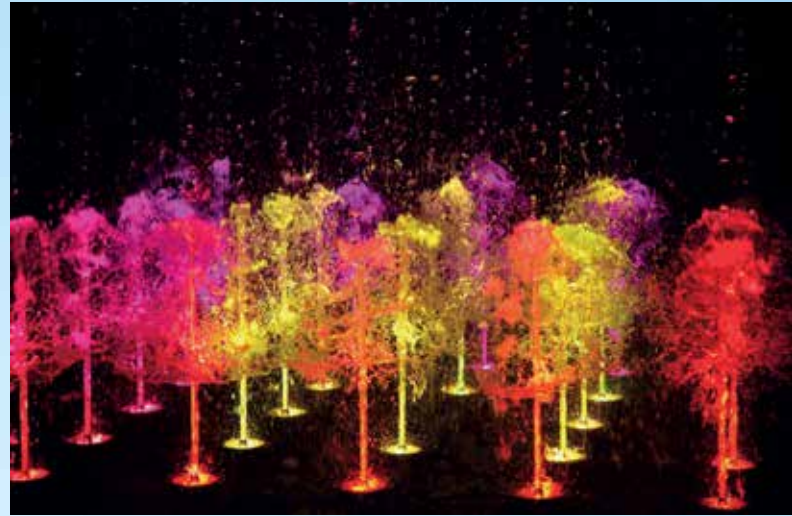

Range of Pools

Competition Pools
Infinity Pools
Overflow Pools

Skimmer Pools
Plunge Pools
Fountain Pools

Reflection Pond
